Amiplus[®] Liquid 2.0

Produced and Distributed by: Yara UK Limited. Pocklington Industrial Estate, Pocklington, York. YO42 1DN. Tel: 01759 302545 www.yara.co.uk

APPLICATION RATE

AMIPLUS[®] LIQUID 2.0 can be applied on urea and mixed with UAN. Please contact your Yara Advisor for specific

information on how to calculate the dosing rate of the formulation.

STANDARD DOSE RATES

2 l/MT of urea 0.8 L per 1000L UAN

DIRECTIONS FOR USE ALWAYS FOLLOW THESE LABEL INSTRUCTION

Mix the product thoroughly before use. The AMIPLUS® LIQUID 2.0 can be added onto the urea with any common coating device (drum, blender). Heat-traced piping for the feed towards the blender is highly recommended. Follow the best practises for treating fertilizer materials to ensure a good coating efficiency and to maintain the correct product quality.

It is recommended that the treated urea is immediately bagged after production.

The AMIPLUS[®] LIQUID 2.0 can be mixed with UAN liquid fertilizer with any common blending / mixing device.

TANK MIXING/CO-APPLICATION

Read ALL labels carefully and adhere strictly to the instructions for use. Co-application is entirely at the risk of the end-user. Before co-application of products you, or your advisor, must visit www.tankmix.com for important information. Alternatively, contact Yara for specific advice.

PRECAUTIONS

Avoid application under extremes of climate. Wear suitable gloves and face shield when handling this product. Clean all equipment before and after use. Please refer to the MSDS for further information, available at www.yara.com.

STORAGE

Keep in a cool, dry chemical store, out of reach of children and livestock.

Keep in a closed container and dry atmosphere. Avoid exposure to air and moisture.

Avoid storage at too high temperatures (nBTPT degradation) store between <0°C and <25°C. Dispose of contents and container in accordance with all local, regional, national and international regulations. DO NOT RE-USE CONTAINER for any purpose.
