YaraAmplix™

Enhancing your crops' natural potential in harmony with nature

Responsive

Biostimulants are easily adaptable to crops needs throughout the crop cycle. They are part of a comprehensive range of crop nutrition solutions that include primary and secondary crop nutrients, micronutrients, agronomic advice and digital farm management tools.

Robust

Biostimulants make crops more robust. They improve crop quality and contribute to more vigorous and healthy plants. At the same time, they improve crop yield and therefore keep the farmer's business profitable and sustainable.

Resilient

Biostimulants make crops more resilient by enhancing plants' tolerance to abiotic stress, such as drought or extreme temperatures, helping to mitigate the negative impact of climate change.

YaraAmplix™ contributing to growing a *Nature-Positive Food Future*

Abiotic Stress Tolerance

- Water stress
- Temperature stress
- Light stress
- Salinity
- Chemical stress
- Etc.

Resilient, Robust, Recover

Nutrient use efficiency

- N fixation
- Nutrient solubilization (e.g. P, K)
- Nutrient availability
- Nutrient uptake
- Nutrient assimilation
- Etc.

Restore, Robust, Recover Regain

Crop quality (Yield & Quality traits)

- Soil health
- Plant health
- Fruit quality
- Root growth
- Photosynthetic activity
- Seed germination
- Etc.

Resilient, Restore, Robust, Recover Regain

Yara Amplix positioning in Wheat

Crop response	Pre sowing	Sowing	Tillering (BBCH 21-29)	First node stage (BBCH 30-32)	Flag leaf stage (BBCH 39)
Support crop establishment and improve nutrient use efficiency	YaraMila NUTRI P with PROCOTE OPTIMIZE				
Promote seed germination and early crop establishment		YaraAmplix SEEDLIFT 3 – 6 lt/ton			
Enhance tolerance to abiotic stress and plant growth			YaraAmplix OPTIVI 1.5 -2 lt/ha		
Improve productivity & enhance tolerance to abiotic stress				YaraAmplix OPTIVI 1.5 -2 lt/ha	YaraAmplix OPTIVI 1.5 -2 lt/ha
Enhance root development & nutrient uptake/availability		YaraAmplix OPTINUE 2 – 5 lt/ha			

Soil applied products
 Foliar applied products
 Fertilizer coating products
 Seed treated product

Read label before application of any YaraAmplix product

YaraAmplix™ OPTIVI™
Promotes plant growth and enhances abiotic stress tolerance
